

Claim Amendments

Applicants have amended claim 1. Applicants set forth below a complete listing of the claims with the corresponding status indicated for each claim.

1. (Currently Amended) A printing system comprising:
a network;
a plurality of output printing devices coupled to the network, each output printing device comprising status information;
an application connected to the network, the application adapted to receive and display the status information of all of the output printing devices; and
a user interface in communication with the application, the user interface comprising a toolset selector comprising first and second positions, the user interface adapted to display a print job interface when the toolset selector is in the first position, and display an output printing device interface when the toolset selector is in the second position.
2. (Previously Presented) The printing system of Claim 1, wherein the output printing device is a printer.
3. (Previously Presented) The printing system of Claim 1, wherein the output printing device is a copier.
4. (Previously Presented) The printing system of Claim 1, wherein the status information comprises paper input tray information.
5. (Previously Presented) The printing system of Claim 1, wherein the status information comprises toner level information.
6. (Previously Presented) The printing system of Claim 1, wherein the status information comprises fuser level information.

7. (Previously Presented) The printing system of Claim 1, wherein the status information comprises paper output tray information.

8. (Previously Presented) The printing system of Claim 1, wherein the status information comprises output printing device service information.

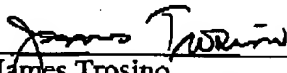

9. (Canceled).

10. (Previously Presented) The printing system of Claim 1, further comprising a client computer that comprises the application.

11-20. (Canceled).

Applicants respectfully request that the Examiner allow this application.

Respectfully submitted,
